About the Course

This course is designed to develop students' quantitative aptitude, communication, and professional skills essential for academic success, campus placements, and workplace readiness. It covers numerical aptitude, logical reasoning, reading comprehension, grammar, vocabulary, professional email writing, workplace communication, ethics, teamwork, and stress management. Through practical activities, role plays, case studies, and collaborative learning, students enhance their analytical thinking, communication, problem-solving, and interpersonal skills, enabling them to perform confidently in professional and organizational settings.

Course Objectives

After completing this course, students will be able to:

1. Develop quantitative reasoning and logical thinking skills to solve aptitude problems commonly encountered in higher education and placement examinations.
2. Strengthen written and verbal communication skills through professional email writing, grammar, vocabulary, reading strategies, and workplace interactions.
3. Develop professional competencies including teamwork, workplace ethics, interpersonal communication, and organizational behaviour.
4. Apply logical reasoning and analytical techniques to solve real-world quantitative and reasoning problems.
5. Build career readiness through effective communication, reflection, podcasting, professional networking, stress management, and continuous self-improvement.

Learning Outcomes

Upon successful completion of the course, students will be able to:

1. Apply numerical and logical reasoning techniques to solve aptitude-based problems efficiently.
2. Interpret quantitative information and perform mathematical computations accurately.
3. Demonstrate effective reading, writing, listening, and professional communication skills.
4. Draft professional emails using appropriate formats and workplace etiquette.
5. Apply English grammar and vocabulary effectively in academic and professional communication.
6. Demonstrate teamwork, interpersonal communication, workplace ethics, and conflict resolution skills.
7. Manage stress and time effectively to improve personal and professional productivity.
8. Develop active listening, interviewing, presentation, and storytelling skills through podcasts and collaborative learning activities.

9. Demonstrate confidence and professionalism in workplace communication and career development activities.
10. Exhibit self-directed learning and continuous professional development.

Course Outcome (CO)

CO1 : Apply quantitative aptitude concepts to solve numerical problems.

CO2 : Analyze logical reasoning problems using analytical thinking.

CO3 : Demonstrate effective written and verbal communication in professional contexts.

CO4 : Apply workplace ethics, teamwork, and interpersonal skills in professional environments.

CO5 : Demonstrate career readiness through professional communication and self-development activities.

Module
Unit 1: Quantitative Foundations and Academic Reading Skills

Number System: Classification of Numbers, Divisibility Rules, HCF and LCM, Factors, Unit Digit, Highest Power of a Number in a Factorial, Number of trailing zeroes.
Averages: Basic Averages, Concept of Distribution, Weighted Average,

Reading Strategies and Techniques, Skimming and Scanning, Understanding Main Ideas and Supporting Details, Critical Reading and Interpretation, Reading for Academic and Professional Purposes, Introduction to Stress Management, Sources of Stress, Time Management, Emotional Well-being, Techniques for Managing Stress in Academic and Professional Life.
Practical

- Reading Comprehension Exercises
- Case-Based Discussions
- Stress Management Activities
- Mindfulness and Time-Management Exercises

Unit 2: Time-Based Reasoning and Professional Written Communication

Calendars: Introduction of Calendars, Leap Year, Ordinary Year
Clocks: Introduction, Angle based, faulty Clock, Interchange of hands,

Introduction to Professional Email Writing, Email Structure and Format, Formal and Informal Emails, Email Etiquette and Netiquette, Writing Effective Subject Lines,

Professional Correspondence, Vocabulary Building Techniques, Synonyms and Antonyms, Frequently Used Workplace Vocabulary, Contextual Vocabulary Usage.
Practical

- Email Drafting Activities
- Workplace Communication Simulations
- Vocabulary Enhancement Exercises
- Peer Review Sessions

Unit 3: Percentage Applications and English Language Proficiency

Percentages: Basic calculation, ratio equivalent, base, change of base, multiplying factor, percentage change, increment, decrement, successive percentages, word problems.

Parts of Speech, Tenses and Their Applications, Subject-Verb Agreement, Articles and Determiners, Prepositions, Sentence Structure, Error Detection and Correction, Active and Passive Voice, Direct and Indirect Speech, Common Grammar Mistakes in Professional Communication.
Practice

- Grammar Worksheets
- Error Spotting Exercises
- Sentence Correction Activities
- Online Grammar Quizzes

Unit 4: Financial Aptitude and Workplace Professionalism

Profit & Loss: Basic concepts-based problems, formula, faulty weights, miscellaneous problems
SI and CI: Simple Interest, finding time and rate, Compound Interest, difference between SI and CI.

Introduction to Workplace Culture, Cultural Diversity and Inclusion, Interpersonal Communication, Teamwork and Collaboration, Professional Behaviour, Workplace Ethics, Business Etiquette, Corporate Communication Practices, Conflict Resolution and Relationship Building.
Practical

- Role-Play Activities
- Workplace Scenarios
- Cross-Cultural Communication Exercises
- Professional Etiquette Simulations

Unit 5: Logical Reasoning, Active Communication and Career Development

Direction sense: Simple statements, shadow type problems

Blood relations: Indicating type, operator type, family tree type

Introduction to Podcasting, Communication Through Storytelling, Interview Techniques, Active Listening Skills, Question Framing and Discussion Moderation, Learning from Faculty Experiences, Senior Interaction Sessions, Career Guidance Discussions, Reflection and Personal Growth.
Practical

- Podcast Recording Sessions
- Faculty and Senior Interviews
- Group Discussions and Reflections
- Presentation and Feedback Activities
