CSE STUDY HUB

Communication Skills for Engineers II — Communication

UNIT 3 · Grammar & Sentence Skills

What this unit is about

This unit builds understanding of **Grammar & Sentence Skills**. These notes are designed for quick learning and exam revision: learn the meaning, understand the working, practise an example, and finish with comparisons and key terms.

Syllabus coverage checklist

1. Parts of speech and their functions

2. Tenses: forms, time reference and consistency

3. Subject-verb agreement with singular/plural and tricky subjects

4. Articles and determiners; countable and uncountable nouns

5. Prepositions and common usage patterns

6. Sentence structure: phrases, clauses and sentence types

7. Error detection and correction; common grammar mistakes

8. Active and passive voice; when passive is appropriate

9. Direct and indirect speech; tense/pronoun/time changes

How to study: Read each topic once for meaning, underline definitions and formulas, reproduce diagrams/steps without looking, then answer the revision questions on Page 5.

Exam answer pattern

For a 5-mark answer: (1) definition, (2) labelled diagram or formula, (3) working/components in steps, (4) example/application, and (5) one advantage, limitation or comparison.

UNIT 3 NOTES · PART 1

Parts of speech and their functions

Parts of speech and their functions is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Tenses: forms, time reference and consistency

Tenses: forms, time reference and consistency is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Subject-verb agreement with singular/plural and tricky subjects

Subject-verb agreement with singular/plural and tricky subjects is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Connect and apply

For a practical question on Grammar & Sentence Skills, first identify which syllabus concept is being tested. State assumptions, draw the relevant structure/flow, work through the steps in order, and finish by interpreting the result. Mention complexity, reliability, accuracy, cost or ethical impact whenever it is relevant.

UNIT 3 NOTES · PART 2

Articles and determiners; countable and uncountable nouns

Articles and determiners; countable and uncountable nouns is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Prepositions and common usage patterns

The OSI model has Physical, Data Link, Network, Transport, Session, Presentation and Application layers. Each layer provides services to the one above and uses the one below; encapsulation adds headers as data moves down.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Sentence structure: phrases, clauses and sentence types

Sentence structure: phrases, clauses and sentence types is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Connect and apply

For a practical question on Grammar & Sentence Skills, first identify which syllabus concept is being tested. State assumptions, draw the relevant structure/flow, work through the steps in order, and finish by interpreting the result. Mention complexity, reliability, accuracy, cost or ethical impact whenever it is relevant.

UNIT 3 NOTES · PART 3

Error detection and correction; common grammar mistakes

Error detection and correction; common grammar mistakes is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Active and passive voice; when passive is appropriate

Active and passive voice; when passive is appropriate is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Direct and indirect speech; tense/pronoun/time changes

Direct and indirect speech; tense/pronoun/time changes is a syllabus concept in Communication Skills for Engineers II — Communication. Learn its definition, purpose, key terms and working principle. Organise the explanation into components or steps, then add a practical example, one advantage, one limitation and a comparison with a related concept.

Write in your own words: Define the concept, list its important parts/steps, and attach one example from a system, program, workplace or numerical problem.

Connect and apply

For a practical question on Grammar & Sentence Skills, first identify which syllabus concept is being tested. State assumptions, draw the relevant structure/flow, work through the steps in order, and finish by interpreting the result. Mention complexity, reliability, accuracy, cost or ethical impact whenever it is relevant.

QUICK REVISION & EXAM PRACTICE

Key takeaways

• **Parts of speech and their functions** — know the definition, core working and one example.

• **Tenses: forms, time reference and consistency** — know the definition, core working and one example.

• **Subject-verb agreement with singular/plural and tricky subjects** — know the definition, core working and one example.

• **Articles and determiners; countable and uncountable nouns** — know the definition, core working and one example.

• **Prepositions and common usage patterns** — know the definition, core working and one example.

• **Sentence structure: phrases, clauses and sentence types** — know the definition, core working and one example.

• **Error detection and correction; common grammar mistakes** — know the definition, core working and one example.

• **Active and passive voice; when passive is appropriate** — know the definition, core working and one example.

• **Direct and indirect speech; tense/pronoun/time changes** — know the definition, core working and one example.

Worked-answer framework

Scenario: A question asks you to explain or apply a concept from Grammar & Sentence Skills. **Step 1:** identify the relevant term and define it. **Step 2:** write the formula, components or ordered process. **Step 3:** apply it to the given data/scenario. **Step 4:** state the result and justify it. **Step 5:** mention one limitation or precaution.

Self-test questions

Q1. Define Parts of speech and their functions and explain its importance.

Q2. Explain the working/steps involved in Tenses: forms, time reference and consistency.

Q3. Differentiate between two related concepts from Grammar & Sentence Skills.

Q4. Give one practical application of Direct and indirect speech; tense/pronoun/time changes and discuss one limitation.

Q5. Write a structured 5-mark answer covering the main ideas of Grammar & Sentence Skills.

Final checklist: I can define every topic · explain the process without notes · reproduce formulas/diagrams · solve one example · compare related concepts.
